

Cover Crop Cost Share - 2022

The goal of this cost share is to provide financial assistance to landowners who are willing to try new practices on their land - such as cover crops. We hope that landowners can find new conservation methods that work on their property. This is for landowners that are within the West Greeley Conservation District. All participants must be active tax payers of the West District Conservation District.

What is a cover crop? A cover crop is a crop grown for the protection and enrichment of the soil. This is done by managing erosion, disease, weeds, and pests with the selection of the cover crop mix and on farm specific needs. Cover crops enrich the soil by improving fertility, quality, biodiversity and wildlife (micro and macro), enrichment of the soil is also controlled by cover crop mixture selection.

Requirements for cover crop cost share:

1. The land must be within the WGCD
2. Cost Share form must be completed and returned to WGCD. The form will be taken to the Board of Supervisors for discussion and approval. Quotes for desired work must be submitted with Cost Share form and submitted to WGCD.
3. All projects must be approved by WGCD Board of Supervisors prior to seed purchase. If you purchase and plant prior to approval you will be disqualified from Cost Share.
4. Acreage requirement is as follows: 0 to 500 acres per landowner per year. This application is for a 5-year commitment of planting cover crops on the chosen field (landowners' decision) to ensure that the cover cropping process is given adequate time to make positive soil impacts on the field of interest
5. WGCD will pay on a per acre basis- These funds are to cover seed and planting costs.
6. Landowners that intend to graze their cover crops will be considered for additional funds to help with watering/fencing.
7. Any additional costs will be the sole responsibility of the landowner.
8. Landowner must provide printed seed cost (such as a print out from your seed dealer with the mixture information) and acreage to be planted in cover crops
9. Landowners are asked to provide an update on cover cropping experience.
10. WGCD will take soil samples through the entirety of the 5-year project, at no cost to landowner
11. Cost Share will be approved on a case-by-case basis, determination and approval is specifically given from Board of Supervisors.

Applicant name: _____

Date of Application: _____

Address: _____

Site Location: _____

Phone: _____

Email: _____

SSN: _____

What is your current cash crop?

What does your crop rotation process look like? Current/previous and future.

What type of soil related problems have you had with this field in the past? Explain.

What goals have you set for your cover crop? Please Explain.
